"The Coin Machines Merry-Go-Round"

By Bill Gersh

ON TO WASHINGTON

Samuel (Curley) Robinson of A.O.L.A.C. (Associated Operators of Los Angeles County, Inc.) is urging all coinmen who are writing to him for information in regard to the work that his organization is doing to get the Federal taxation on Pinball and counter games revised so that the government will enjoy greater revenue and will at the same time help to continue many small retailers in business, to further help by going on to Washington.

It would be a feather in the hat of this industry if every one of the leaders would take the necessary time off to meet with "Curley" and his associates before the Ways and Means Committee while they present their views as to just what they feel would be a fair taxation program.

It is well to remember that every argument presented to this Committee must be based on the fact that the method of taxation presented will help the Federal government to enjoy greater revenue. At the same time of course, help those in this industry continue in healthy condition as well as keep many small retailers going for the duration. This argument, about the increase in Federal revenue, must be kept to the fore at all times. "Curley", we note, has also stressed this in his letters to coinmen.

One of the best things to benefit this industry would be for each association in the country and each operator's group, whether they classify themselves as an association or not, to meet in Washington on the day the A.O.L.A.C. will be given its appointment. Such concerted action is bound to bring about a greater respect from those legislators who will be on the Committee.

It should also be remembered that there is nothing as effective (especially in Washington) as a crowded Committee room of people seeking that the right thing be done for the government and all concerned by the officials they elected to office. This is something for all leaders in this industry, who really and truly desire to see not only Federal taxes lowered but by lowering these taxes see state, county and city taxes lowered proportionately, to meet in Washington with the A.O.L.A.C. when the time arrives.

And all this again tends to prove the necessity for a National Coin Machines Board of Trade whose generalship is so sorely needed especially now when more and more taxes are being slapped upon this industry and coinmen turn desperately to someone with the necessary experience, resources and knowledge of what to do.

SHORT AND HARD DEPRESSION?

Labor leaders in Washington are now arguing the possibility of a short and hard depression presenting itself within a few months (or even sooner) because of the fact WPB is cancelling many war contracts. At this time WPB is reviewing over \$5½ BILLION worth of contracts which were released since the first of the year with the intention of saving much of this money. Plenty of tools are now on hand, WPB reports, and new building which was authorized for tooling plants will not be necessary.

This loss of war contracts by many factories, and also the fact that a great many other factories will not have their contracts renewed when they have completed them, is bound to create a short and hard depression, according to certain labor leaders. Naturally, this industry will find that men out of work temporarily and with plenty of money to spend, are going to be marvelous customers for all types of coin operated equipment. A great many of these men will welcome this short-lay-off from work and will probably use their leisure hours for economical relaxation.

The facts as presented in the article which appeared in our last week's (May 25th) issue, regarding a possible return to domestic production by many factories, are becoming more apparent each day. Pressure cookers have just been authorized for production once again. Alarm clocks, using steel parts instead of brass, have been released and production of these continues. Distillers are being authorized to go back to whiskey manufacture with WPB allocating a certain percentage of the alcohol they distil for this purpose, for there is no more storage room left for alcohol in these United States. Other manufacturers are also getting set for a return to domestic production.

"The Coin Machines Merry-Go-Round"

Surprises are heaping one atop the other now as the armed services learn exactly what they require with their experience in the African victory as a gauge for their needs. All this adds up to one of the greatest summer seasons in the history of this industry. There is no doubt now that play will increase even greater than ever before. The belief was general that coinmen would enjoy a very good summer season, but with the facts that are daily being released by government agencies, coinmen look forward to the best summer in all the history of this industry.

If this short and hard depression does come about soon there is a surety that the coin machines industry will be among the first to benefit. Of course, resorts, theatres, and amusements of all types will benefit, too, but more than anything else the economical force of the coin operated machine stands to earn more per unit on a comparative scale than any other industry will earn.

SERVICE CENTER

This past week a very large deposit was sent care of The Cash Box. This money came from the West Coast. The firm that sent us the money had never before done any business with this eastern distributor and therefore asked The Cash Box as a favor to turn over this deposit. It was interesting to note the reaction of this eastern distributor, who stated, "I would like to have all such deals come thru The Cash Box for we would then have someone who could see that the merchandise we shipped not only was as specified but we also wouldn't have to wait for our money in a long drawn out freight shipment to the Pacific Coast."

Another interesting service rendered this past week was to a non-subscriber who phoned for information regarding a Texas firm with whom he wished to do business. This was the first time we had enjoyed such a conversation. It was enlightening in the fact that the party was shown The Cash Box by one of his friends and instantly made a purchase. He then decided to phone us to make sure of the people he was dealing with prior to sending a deposit so many miles away.

Each and every day something new arises. As one noted coinman stated this past week, "The Cash Box is much, much more than a publication. It's like an exclusive club for the best firms in this business. You sort of feel, when you are dealing with someone who subscribes to The Cash Box, that you are dealing with a reputable firm."

EXPORT MARKET

The greatest export market in all history awaits this industry. Such countries as Brazil are overflowing with American dollars. These dollars will only go to work to create a favorable trade balance when industry is again allowed to ship all types of merchandise to these South American countries.

The South American market as well as the European and Asiatic markets offer the necessary outlet for the equipment now in operation when the new machines come to market after the war is over. Some coinmen were of the belief that there would be a terrific market crash of present equipment when the war is over and machines start coming on the market. We disagree. The export field will gobble up just about everything in sight for not being able to obtain the new equipment first, will use older merchandise (which will still be new to them for they have been at war much longer than we have and have not received shipments for over three years) which will be sold at extremely reasonable prices to them.

In short, the export market looms ever more important to the coin machines industry. With American dollars accumulating in the allied nations, there is no doubt of the potential profits for the men in this industry who are preparing themselves for export markets to clear off used equipment that will clutter this field when the war is over.

HONORABLE MENTION

This week goes to M. F. (Mike) Hammergren of The Rudolph Wurlitzer Company, North Tonawanda, New York, for the outstanding work he has done which has tremendously benefitted this entire industry. Mike has done this work, which is aside from his regular efforts for his firm, unselfishly and without any thought of gain.

Also this week, our Honorable Mention Award goes to Al. S. Douglass of The Daval Company, Chicago, Ill., for the great charity work which he has done and continues to do and which reflects with honor and glory upon all this industry.

DON'T SELL BLIND

The anxiety of a great many coinmen to cash in on the present seller's market is reflected in the fact that more complaints are daily being received from firms that complete deals and then learn the merchandise was, "something we intended to pick up" or "we expected to receive in a few days".

The one and best way to prevent such business dealings in the future is not to offer anything for sale, regardless of how good your intentions are, until the merchan-

"The Coin Machines Merry-Go-Round"

dise is actually on your floor. There is no doubt of the potency of this seller's market as it exists today. This market can consume any and all machines you present that are necessary to continued profitable operations.

But, to maintain your reputation, continue on the theory that whatever you do now will most assuredly reflect on your business relationships after the war. In that way, we feel certain, you will hesitate prior to offering for sale something that is only "on the way in" and not actually in stock. Don't sell blind.

BOWLING BILL

Interesting to all arcade owners, not only in the New York area, but thruout the country, is the bowling bill that was up for public hearing in New York's City Hall this past week which would permit children under 16 to bowl in public bowling alleys provided they were accompanied by a parent or authorized adult.

Mayor LaGuardia, who presided, indicated his intention to veto the measure. He stated, "I see no objection to children between the ages of 14 and 16 bowling but why can't we have fixed hours for children only? That's the trouble with this bill."

Here's a unique opportunity for arcade men. Set aside a certain few hours each day wherein the arcade, under proper supervision, could obtain permission from local authorities to turn the place over to children. It would be necessary to cover or remove any object or machines which might prove offensive to minors. In short, certain reels and pictures may not meet with approval. Cover these. In this fashion the arcade owner is sure to win greater respect from the general public if he can get his city's officials to allow children exclusively to use his arcade certain hours during each day.

WRITING CONGRESSMEN

Following the many urgent appeals which have been made regarding the pending hearing on pinball and counter games taxes, many coinmen have written to their Congressmen. It is therefore interesting to read the letters that come in from these Congressmen in answer to those written to them by coinmen.

Frank Duncovich of Columbia Novrlty Company, Amsterdam, N.Y., believes that every operator should write his Congressman and tell him how unfair this new pinball tax really is. Frank writes, "We feel it is very important that each operator write to his respective Congressman asking for some action on this bill. This is only a suggestion on my part. But we feel sure it will have some reaction."

Here is the answer that Frank received from Congressman B. W. Kearney of the 30th District, New York: "This is in reply to your letter of May 4th in reference to the proposed increase in the Federal license on redeemable free play pinball machines which you understand is under consideration, and you feel that these games should be classed as amusements with a tax of \$10.00 instead of slots with a tax of \$100.00.

"It is possible that this is under consideration in a new tax bill as a means of raising additional revenue but this is the first knowledge I have of it. However, you may rest assured I shall be glad to check into the matter and see if I can find out if such a provision is being contemplated but it may only be in the proposal stage.

"Thanking you for your letter and assuring you of my cooperation in the meantime and with my best wishes, I am, sincerely yours, B. W. Kearney, M.C."

The reason we reproduce the above is so that other coinmen thruout the country will have a clearer understanding of just what to write to their Congressmen. The bill is already there. It is not a new bill being proposed. It is all settled, all cut and dried. The new tax (effective on July 1st) will be \$10.00 for any pinball game where the free plays are not redeemed and \$100.00 per year where they are redeemed, whether for merchandise or cash. The coinmen should write to one of the members who will be on the Committee from their own state. These names can be obtained from Samuel "Curley" Robinson, A.O.L.A.C., 1351 W. Washington Blvd., Los Angeles, Cal.

What you must point out to the Congressman is that by taxing pinball at \$100.00 per year the Federal government is bound to lose revenue for it will not pay to keep games on location with this tax. Not only will this hurt you but will also seriously injure many small businesses who look to pinball as an aid to paying their overhead. You should advise your Congressman that if 500 games are on various locations in your community just what number of these will be pulled because of this \$100.00 tax. In short, the Federal government will obtain more revenue at \$10.00 tax per game for 500 games than \$100.00 tax per game for only 20 games that might be left after you get thru pulling the other 480 from locations because of the fact that they will not be profitable to operate any further at \$100.00 per year tax to the Federal government alone, and this is not taking into consideration state, county and city taxes which you may have to pay in your territory.

Remember, the big story is loss of revenue for Uncle Sam!!!!

THE HISTORY OF THE UNITED STATES

The first part of the history of the United States is the period from the discovery of the continent by Christopher Columbus in 1492 to the establishment of the first permanent settlements in 1607. This period is characterized by the exploration of the continent by Spanish, French, and English explorers, and the establishment of the first permanent settlements in the eastern part of the continent.

The second part of the history of the United States is the period from 1607 to 1776. This period is characterized by the growth of the colonies, the struggle for independence from Britain, and the establishment of the United States as a new nation. The American Revolution was a turning point in the history of the United States, as it led to the establishment of a new government and the end of British rule.

The third part of the history of the United States is the period from 1776 to 1865. This period is characterized by the growth of the United States, the struggle for slavery, and the American Civil War. The Civil War was a turning point in the history of the United States, as it led to the abolition of slavery and the establishment of a new government.

The fourth part of the history of the United States is the period from 1865 to 1914. This period is characterized by the growth of the United States, the struggle for civil rights, and the American Civil War. The Civil War was a turning point in the history of the United States, as it led to the abolition of slavery and the establishment of a new government.

The fifth part of the history of the United States is the period from 1914 to the present. This period is characterized by the growth of the United States, the struggle for civil rights, and the American Civil War. The Civil War was a turning point in the history of the United States, as it led to the abolition of slavery and the establishment of a new government.

REPORT OF THE BOARD OF DIRECTORS
OF THE
AMERICAN
SAVINGS
AND
LOAN
SOCIETY
FOR THE YEAR
1900

The Board of Directors of the American Savings and Loan Society, organized under the laws of the State of New York, has the honor to submit herewith its report for the year 1900.

The year 1900 was a year of unusual prosperity for the Society, and the Board has the pleasure to announce that the same has been reflected in the financial results.

The total assets of the Society at the close of the year 1900 were \$1,000,000, and the total liabilities were \$800,000, leaving a surplus of \$200,000.

The Board has the honor to recommend that the surplus of \$200,000 be distributed to the members of the Society in the form of a dividend.

The Board has also the honor to recommend that the year 1900 be declared a year of non-distribution, and that the surplus of \$200,000 be carried over to the year 1901.

The Board has the honor to recommend that the year 1900 be declared a year of non-distribution, and that the surplus of \$200,000 be carried over to the year 1901.

*QUALITY *HIGH CLASS *LIKE NEW *VERY CLEAN
*GUARANTEED *RECONDITIONED *MECHANICALLY PERFECT

A lot of beautiful descriptive adjectives used by thousands to describe their wares.

So generally used as to become meaningless.

Due to war conditions, manufacturers' identities to their products have been dropped in most cases.

Since practically all equipment now being purchased is used, a machine is only as good as the firm that sells it.

SO WE WILL JUST SAY "A SEIDEN MACHINE"

IMPORTANT

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the week; Where only one price appears this should be considered lowest price.

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for each week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price for the week, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

- 1—Means price went up.
- 2—Means price went down.
- 3—Means this machine just added to list.
- 4—Means prices went up and down same week.
- 5—Means prices remained same as in past week's issue.
- 6—Means no prices quoted for this machine this week.
- 7—Means no prices quoted for this machine for past two weeks.
- 8—Means no prices quoted for this machine for past three weeks.
- 9—Means no prices quoted for this machine for past four weeks or longer.
